BUY A GOOD USED CAR FOR YOUR VACATION!

With the first of June — vacation time starts — this is the time of yells when you really enjoy a car — pic-nics, after-work swims, fishing. They all add up to more enjoyable living. But remember, when you purchase a Used Car, it's always was to know your dealer. When you purchase a Used Car at Trudeau's you can be assured of getting real value for your money, as our Used Cars are all re-conditioned and put in first class shape in our own car-rebuilding plant.

Besides this our reputation for square dealing built up over our 25 years of doing business in Belleville is your assurance that Trudeau's stand behind their products.

For all those occasions when you need bot water in a hurry—for tes, for warming baby's bottle, for rinsing the distes—the G-E Kettle is a real time-saver. It's so first because the element is right in the water—all the hear goes into the water—no current is wasted.

The G.E. Keelle leaves the surface elements on your range free for cooking. It cannot overheat—furna itself off automatically if it should boil day. A "must" for the summer cottage, too, Holds from plans.

Many a businessman credits his success to the habit of thrift learned early in life. Planned saving has helped millions of Canadians to make the most of their own enterprise and industry.

"I just had to call you and tell you the good news."

It's a big event for us too-It's a big event for its too—and it is taking place in homes and offices, in cities and villages every day—bringing more and better telephone service to more and more people.

In the past five years we've connected over one and a half million telephones to meet new requests for service. We've added well over two million miles of wire to carry the ever growing volume of local and Long Distance calls.

In fact we've packed as much growth into the past five years as we did in the first fifty years of our history.

Ask your neighbours about G-E's longer life and dependability

It's just sound common sense to make certain before you buy. Fortunately, there's a simple way to find out which refrigerator stands head and shoulders above all the rest. Ask your neighbours who already own General Electric refrigerators - they'll tell you that they *cannot be matched for quiet, economical, trouble-free service year after year after year.

Space Maker REFRIGERATOR

The new Space Maker Refrigerator actually gives you one-third more refrigerated storage space without taking up any extra floor area. You can save many dollars each month by buying food in larger quantities at lower prices and storing it in your Space Maker. Meats, fruits and vegetables will keep juicy-fresh in their own moist-cold drawers and the frozen food compartment has 20-package capacity. See this new G-E beauty at your dealer's - soon. He will demonstrate its many

exclusive features. And remember . . . dependability is a G-E tradition; more than 21/2 million G-E refrigerators have been in use for ten years, many for far longer-

Its Great Name is Free!

If there were some way to strip a Cadillac of every identi-fying emblem it possesses, and judge it solely by the way it rides and handles and performs—it would still be quickly recognizable as the "Standard of the World."

But think what a Cadillac brings you in addition to the solid value of its engineering and performance and comfort and handling ease—the wonderful Cadillac name!

Perhaps in all the world, there is no inanimate object which speaks so eloquently as the Cadillac shield. It talks of background, of progress, and of faultless workmanship. It proclaims a promise of years and years of the utmost motoring satisfaction. It speaks of its owner, and identifies him as a man of accomplishment and discrimination.

In fact, there is nothing good and wonderful a motor car can bring that int' promised or implied by the beautiful Cadillac shield. And it speaks a aniersal language, which is understood and appreciated the wide world oven.

And remember, you pay nothing extra for the pride and pleasure of having this great and distinguished name. They come as a "special dividend" with every Cadillac car.

MEANING OF HIKE

The headline writers across the country are popularizing a new word or at least a new meaning for an old word as they use "thee" to indicate a rise or an increase, as of wages or cost of living. In the dictionaries hite is generally used to represent a long walk or march. And some of the "hitest" referred to ought to be doing just that.—(Port Arthur News-Chroniches).
